
What is the PCR?

- PCR stands for Prescribed Coursework Report. It is a comprehensive list of all your courses that meet the pre-requisite coursework requirements. You should use this as a tool to verify you fulfill all course requirements for the schools to which you are applying. You can see which courses are approved for your institution [here](#).
- Many of the courses that aren't included on your PCR **will** count towards the BCPM GPA – these are not exclusive!

What should you look for in the PCR?

- Do you have any deficiencies in your course hours?
 - If you haven't received a grade for a course yet, those hours won't count towards the PCR until the grade is entered.
 - If you repeated a course it won't count towards the required hours twice.
- Were you expecting other courses to be coded as a pre-requisite that are not on this list?
 - If so, see below.

I was expecting more courses to be on the PCR, why aren't they listed?

- You didn't earn a grade for this course.
 - If a course was taken for Pass/Fail then it will not appear on the PCR. Review the College Coursework section of your application to see how we coded the course. If it's coded as the pre-requisite you expected it to, there's nothing you'll need to do.
- It might not be approved yet!
 - Please message your applicant liaison to see if they can tell you why this course was not approved or why it's not appearing on this list. They can also give you instructions on how to begin the appeals process.

This is an example of a PCR. We've highlighted some of the items mentioned above.

TMDSAS Prescribed Coursework (PCR)

Dwayne The Rock Johnson

TMDSASId: 162709

EY: 2021

Validated: N

Date of PCR: 04/22/2020

Validation does not occur until later in the fall - it is normal for this to remain as 'N'
